

## Ideation Phase

### Empathize&Discover

Date	03 November 2023
TeamID	NM2023TMID04527
ProjectName	Tracking Public Infrastructure and Toll Payments using blockchain

#### Empathy Map :

An empathy map like this helps understand the various perspectives and motivations of stakeholders involved in tracking public infrastructure and toll payments using blockchain. It highlights their needs, concerns, and emotions, which can guide the development of a blockchain-based solution that addresses these concerns and provides value to all parties involved.

### Tracking Public Infrastructure and Toll Payments
